THE TRADITION CONTINUES

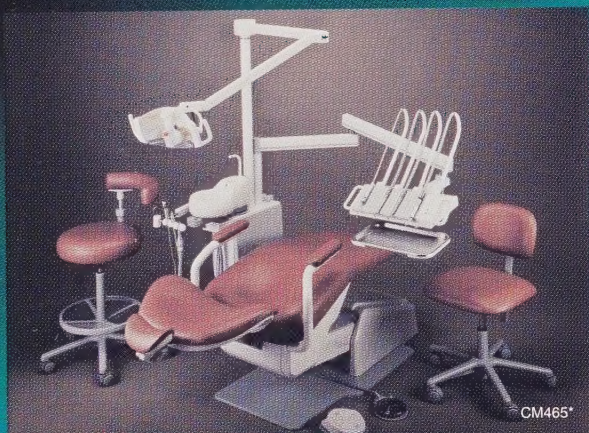

RECOGNIZED VALUE - AFFORDABLE QUALITY

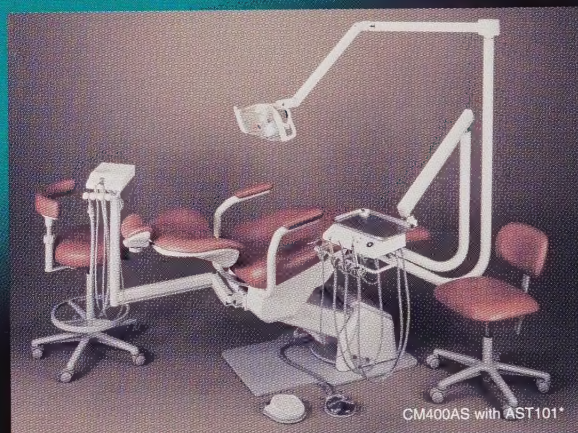

Ultima 2 Chair**

CM410A with Touchpad*

CM465*

CM400AS with AST101*

The tradition began in 1971 when Anton Simor responded to your professional requirements for more innovative dental controls. By committing itself to design and value leadership, the business which has evolved into today's Dentech Corporation has supplied more than 50,000 operatory units to dental professionals around the world.

Dentech leads the industry with aseptic, seamless control head covers; the "SensorTouch" activation system; an under-toeboard pivoting system for chair mounted units; a multi-point pivoting linkage for dental patient chairs; and exhaust air filter mufflers on control heads. We are proud of our history and are excited by our future.

THERE IS A PULL-OUT SECTION FOR YOU TO BRING TO WINTER CLINIC

OUR ACADEMY

The ACADEMY OF DENTISTRY, formerly the Toronto Dental Society, has been functioning continuously since 1890. It has provided leadership and service to both the profession and the community, and will continue to do so in the future.

The OBJECTS of the Academy are:

1. Advancement of the art and science of dentistry.
2. To promote the highest ideals of dental practice.
3. Cultivation of harmony and good fellowship among its Fellows, and among the members of the dental profession generally.

Some of the specific services provided are as follows:

1. The Annual WINTER CLINIC.
2. After hours EMERGENCY TREATMENT service for the public.
3. The Annual WINTER CLINIC/INFORMATION BOOK, a directory of dental organizations.
4. PUBLIC RELATIONS, an experienced staff person to answer the public's queries and complaints.
5. An ELECTED COUNCIL, representing all Metro Toronto dentists and their local component societies.
6. CO-ORDINATION of dental and fellowship functions within Metro Toronto.
7. DENTAL MEETINGS with excellent programs and clinicians.
8. Assistance in formation of new STUDY GROUPS.
9. HONOURARY LIFE MEMBERSHIP to recognize outstanding dentists.
10. Fellowship activities such as the Annual GOLF TOURNAMENT, CURLING BONSPIEL and SKI DAY.
11. MEDIATION SERVICES for the public.
12. COMMUNICATION with dental auxiliary organizations.
13. Provides an ASSOCIATE PLACEMENT service.

***This is our Academy.
Keep it strong. Support it, enjoy it.***

GREETINGS FROM THE TORONTO ACADEMY OF DENTISTRY

Welcome to the 60th Annual Winter Clinic

Gerry Pearson
Sc., D.D.S., Dip Perio
President

We would like to welcome you to the 60th Annual Winter Clinic. For the Diamond Anniversary meeting, the Winter Clinic Committee has arranged a program which is excellent in continuing education, excellent for providing you with a venue for fellowship and provides excellence in stimulating interest in every member of the dental team. The final result will be betterment for ourselves and most of all for our patients who always top our list of priorities. The clinical program offers courses on Marketing, Anesthesia, Orthodontics, Sleep Apnea, Restorative Dentistry, Radiography and more.

The Toronto Academy of Dentistry would like to thank all the members of the Winter Clinic Committee specifically the contributions of the ODHA, ODN&AA, The Dental Industry Association of Canada and the Association of Registered Dental Technicians of Ontario.

Gene Cervini, D.D.S.
Winter Clinic Chairman

This year the format of the meeting has been slightly changed. The luncheon will be held informally on the Commercial Exhibit Floor. There will be several buffets set around all three exhibit halls with plenty of room to sit and socialize. As well, Head-To-Toe Uniforms will be modeling uniforms in the lunch areas. We want to give Winter Clinic to you, and if there are any comments about this new format, please let us know.

A new venue this year will be our **Mini Theatre** located at the north-west end of Exhibit Hall A. Every hour there will be a half hour presentation followed by a hands-on session at the booth of each presenter. Look for further details in this book.

During the year the Toronto Academy of Dentistry also offers continuing education programs as well as fellowship activities including skiing, curling and a highly successful fund raising golf tournament.

The **Winter Clinic Program Book** is the result of much hard work by the Committee. **KEEP THIS BOOK FOR FUTURE REFERENCE** in your office and **BRING THE TEAR-OUT TO WINTER CLINIC.**

Enjoy your day!

GREETINGS FROM THE ONTARIO DENTAL NURSES AND ASSISTANTS ASSOCIATION

Mollie Petryna, CDA/CDR
President

On behalf of the members of ODN & AA I would like to welcome all dental assistants to the 60th Annual Academy of Dentistry's Winter Clinic.

This one day event allows each of us the opportunity to feed our educational appetites, challenge our inquisitive minds and provide us with a chance to unite and reunite with those who come together for a common purpose. I encourage you to visit the exhibits, where always you will discover the most current dental information in various forms. Whether you travel from Northern Ontario or the local Toronto area, the information that you absorb will serve you in your service to others.

I am looking forward to all that has been planned by the competent organizers of the Toronto Academy of Dentistry's Winter Clinic Committee. I am also looking forward to meeting some of you throughout the day. Enjoy!

WELCOME FROM THE ONTARIO DENTAL HYGIENISTS' ASSOCIATION

Cheryl Cancelli
President

Welcome to the 60th Annual Academy of Dentistry's Winter Clinic.

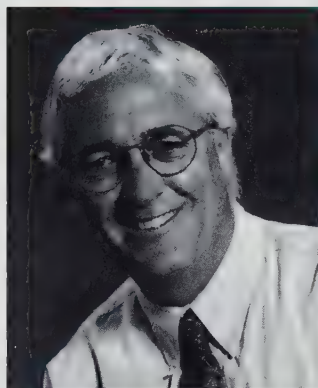

The Ontario Dental Hygienists' Association is pleased to be a part of the one day meeting where dental colleagues can share in a day of professional development. Winter Clinic offers not only a dynamic program of speakers for the dental professional but a great opportunity for networking and a large exhibit hall of dental equipment and products.

The outstanding courses offered here give you an opportunity to add quality to your Professional Portfolio.

On behalf of the ODHA members, I wish to thank the Academy, Raisyl Wagman and our Winter Clinic Official Representative, Barbara Greenglass for planning and providing an interesting and informative program.

GREETINGS FROM DIAC

Cy Elborne
President

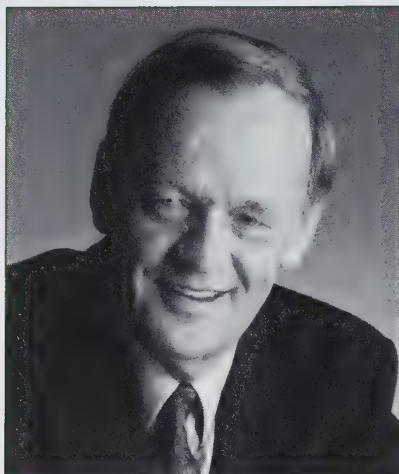

On behalf of the Dental Industry Association of Canada, it is my pleasure to extend a warm welcome to all participants at the 1997 Annual Winter Clinic. DIAC member companies are pleased to participate, and congratulate the Academy of Dentistry on this occasion of the 60th Annual Meeting. The Academy is a quality organization, offering fellowship and education to the profession, and is respected for its contribution to the community via fund raising events.

The organizers have developed an excellent innovative programme, designed to appeal to the entire dental team. The programme will help expand your resources, providing skills and knowledge to enhance your practice. New this year, additional learning experiences will be available on the exhibit floor. Plan to hear a variety of topics presented in a mini-theatre format in the exhibit hall. Also, lunch will be served on the exhibit floor, providing ample opportunity to visit your suppliers and manufacturers, who are always ready to share information, and demonstrate the most current products, services and evolving technologies.

We are all very fortunate to have a meeting of this calibre. On behalf of DIAC, I would like to convey our thanks, and appreciation for the efforts of all members of the organizing committee.

Come and visit with us, socialize, and have fun while you learn.
Enjoy a great meeting.

PRIME MINISTER • PREMIER MINISTRE

It is with great pleasure that I extend my warmest greetings to everyone attending the Winter Clinic sponsored by the Toronto Academy of Dentistry.

This event will provide you with the ideal forum in which to exchange views and discuss issues of mutual concern with fellow delegates. You will also have the opportunity to review past achievements and set new objectives for the future. I am sure that you will find your participation in this convention both enjoyable and rewarding.

Please accept my best wishes for a productive session of activities.

A Message from the Premier

TORONTO ACADEMY OF DENTISTRY 60TH ANNUAL WINTER CLINIC NOVEMBER 26, 1997

On behalf of the Government of Ontario, I am pleased to extend greetings to everyone attending the Toronto Academy of Dentistry's Winter Clinic.

This year is a special milestone for this event as the Clinic reaches its sixtieth birthday. The Academy can take great pride in the important role this meeting plays in the field of dentistry. With representatives from all areas of the profession in attendance, and representation from across the province, the success of the Clinic is assured.

I applaud professional organizations that encourage continuing education and professional development in their members. The Winter Clinic is an excellent occasion for members of the dental profession to keep up-to-date on the latest developments and to network with each other. The information and expertise shared at this Clinic will ensure that your members are well prepared to meet the challenges of the 21st century.

Please accept my best wishes for a successful and rewarding meeting.

A handwritten signature in black ink, reading 'Michael D. Harris'.

Michael D. Harris, MPP

Toronto Academy of Dentistry

60th Winter Clinic

November 1997

The Toronto Academy of Dentistry has been providing services for the dental profession and dental industry in Ontario for 107 years.

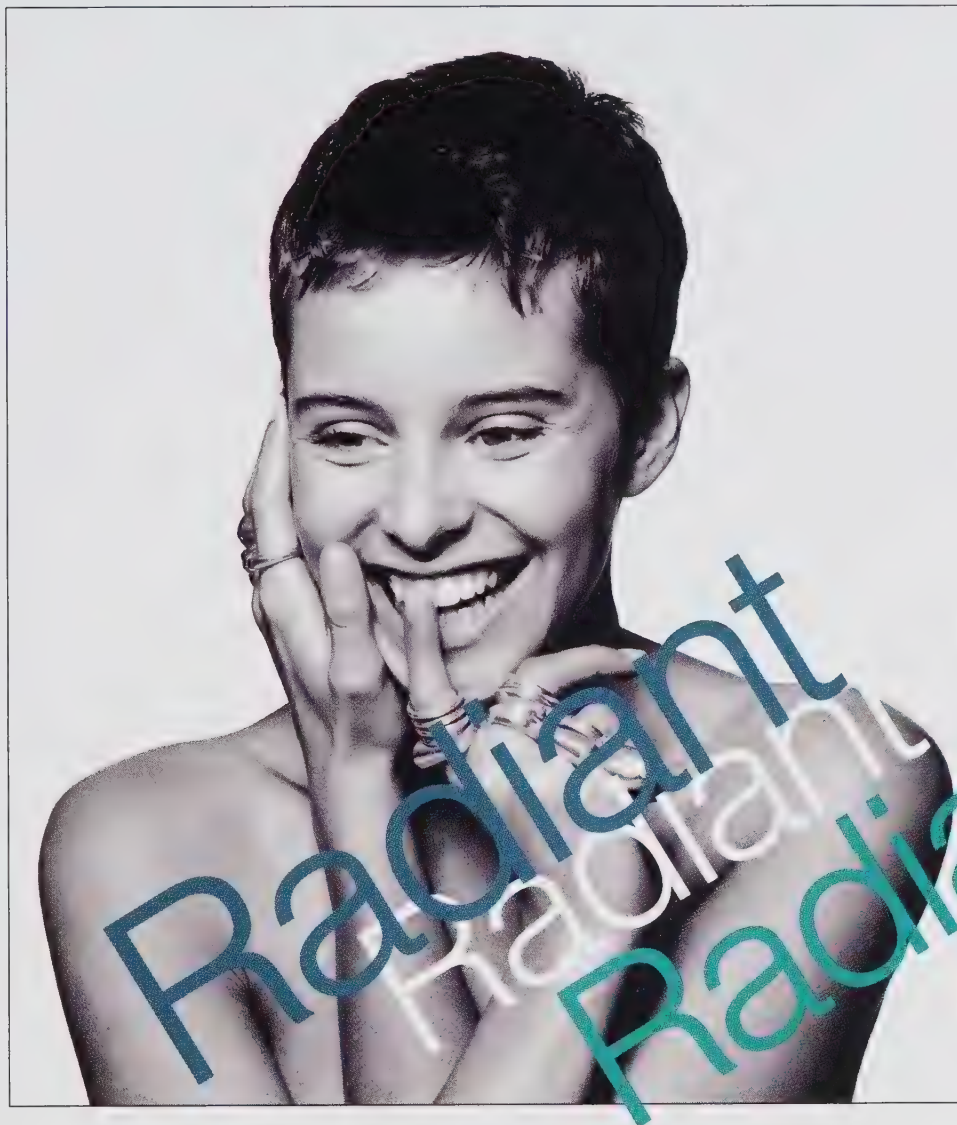

Each November, an annual convention and trade show gives dentists, dental hygienists, dental nurses and dental assistants the opportunity to share information and view new products in their field.

Toronto City Council welcomes delegates to the 60th Winter Clinic. Please accept our best wishes for a productive and successful convention.

HONOURARY LIFE MEMBERSHIP

Donald Manly McKee
D.D.S., L.D.S.

Dr. Donald M. McKee has been chosen as a recipient for 1997 of the Toronto Academy of Dentistry's most prestigious award - its Honourary Life Membership.

Don was born in Saskatoon and soon realized that his destiny lay far to the East in Ontario. However, for a youngster, getting there from Saskatchewan was not an easy task, given the lay of the land. Fortunately, as everyone knows, the sun shines more often there, so the correct horizon can be followed most of the time. Thus Don inexorably headed for Toronto with a sojourn in Winnipeg.

Don graduated from the Faculty of Dentistry, University of Toronto with honours in 1947. Upon graduation Don quickly became involved in what has turned out to be a lifetime of service to his profession and his community.

He became associated with the dental faculty where he taught operative dentistry for 17 years. Coincidentally he became active in his local society culminating with his ascendance to the Presidency of the Toronto Academy of Dentistry in 1972. During this period he was especially pleased with the work that he provided for the Academy's S.H.O.U.T. programme for underprivileged persons and for the children of the Royal True Blue Orange Home in Richmond Hill.

In addition in 1970 he was the Chairman of the O.D.A. Convention Committee and served that Convention for over 20 years.

The foregoing briefly highlights his service to dentistry; however at the same time he was equally involved in serving his community.

With a deep commitment he moved up the line to become President of the Canadian Automobile Association (Ontario, Toronto Club) (CAA). Later he served that organization as its Insurance Company Chairman and eventually became an "Honourary Director" of the CAA.

Don is a Past Vice-President of "Na-Churs International", a firm that provided liquid fertilizer across Canada and the United States; a Past President of Allenby Home and School Association, a consultant for 5 major insurance companies for over fourteen years and a former Lieutenant in the Canadian Power Squadron.

When faced with what must be a decided limit of "leisure" time, Don enjoys gardening, swimming, hunting, fishing and boating.

His gracious wife Megan has tolerated Don's peripatetic style for an unbelievable 48 years, although, in some ways she has matched it as a practicing physician.

Together they raised their daughter Helen who is a dentist and they dote upon their granddaughter Jenny.

Indeed a busy and dedicated life and that is but a part of it.

The Toronto Academy of Dentistry is proud to award its Honourary Life Membership to Donald McKee.

HONOURARY LIFE MEMBERSHIP

**Marvin D. Klotz,
D.D.S., M.Sc., FRCD (C)**

Dr. Marvin Klotz has been chosen as a 1997 recipient of the Toronto Academy of Dentistry's most prestigious award - its Honourary Life Membership.

Marv graduated from the Faculty of Dentistry, University of Toronto in 1960 "with distinction", one might possibly say. What made his undergraduate years "distinct" was his creation of the prima ballerina (?) in the "Swamp Lake Ballet" for Dentantics '56. This role (?) was repeated with an ever changing number of supportive - a necessary quality given the nature of the task - male (dancers?) for many years, in many productions.

However, a future as a professional entertainer was not in the cards, rather Marvin came down to earth from one of his arabesques, kissed his Tu-Tu Tootsie good-bye and set sail on the much more mundane career of a paediatric dentist.

That began at Northwestern University where Marv obtained an M.Sc., and with his remarkable charm and incredible good luck, he fortunately met Susan, a lady of talent and diversity. Susan helped guide his career, tolerated his boundless energy and weird sense of humour and provided three wonderful children; Jennifer, Michael and David (and two dogs, Oscar and Samson).

Space does not permit a detailed exposition of Marv's many pursuits e.g. skiing, golf, tennis, cycling, sailing and many accidents. Rather a short sketch of his remarkable service to his community and profession is in order.

Shortly after returning from Chicago, Marv joined the Toronto East Dental Society for which he acted as a director for 10 years and as an ODA Governor for 6. Over the course of time he sat on and chaired various ODA Committees and was Editor of the "Ontario Dentist" from 1978 to 1981. Nationally, Marv served on the Communications Committee and the Editorial Committee of the CDA and was a councillor to the RCD(C). Coincidentally, he moved up the line to be President of the Ontario Society of Paediatric Dentists in 1971.

At the University of Toronto, Marv has been an Associate in Dentistry for almost 20 years; a member of the Faculty Council and other committees; Alumni Association Executive and edits "Alumni Today", the highly successful magazine he began 14 years ago. The foregoing is, as mentioned, but a sketch that belies the magnitude of Marv's contribution to those enterprises.

One of Marv's important contributions to his profession has been creating and editing and contributing to newsletters and journals. Over the years he has developed his ability for humorous, intelligent and insightful writing and editing. He is not the first to "tell it like he sees it" in spite of occasionally ruffling feathers.

Other community contributions include: The Canadian Civil Liberties Association; Dixon Hall Board of Directors; Temple Har Zion Bulletin Editor; Alpine Ski Club Bulletin Editor; Alpha Omega executive member, editor, columnist and now permanent (for now) Editor of the AORTA.

Not satisfied with such a record of service, Marv ran for and was twice elected to the Royal College of Dental Surgeons of Ontario beginning in 1991 and served on its committees (including Complaints, Executive and as the first Chair of Quality Assurance) for 5 years, until he stepped down last year.

All of this and a philosopher, an epistemologist and a jazz aficionado to boot!

Quite a career for a chubby kid from Beatrice Street (near Dundas).

The Toronto Academy of Dentistry is proud to award its Honourary Life Membership to Marv Klotz.

HEALTHY, WEALTHY WISE

Dental
Practitioners
benefit
from our
understanding
of the entire
healthcare
industry.

Newcourt Financial's healthcare unit, formerly known as Healthgroup, is one of North America's leading providers of direct financing and consulting services to healthcare practitioners. Since 1988 we have provided more than \$500 million in structured financing, ranging from \$10,000 - \$50,000 for individual practitioners to \$10 million for healthcare institutions. Our unmatched continuity of financial services helps practitioners maximize capital, minimize tax, and stay ahead of the competition.

Newcourt
financial

A MEMBER OF
NEWCOURT CREDIT GROUP
NORTH AMERICA'S NON-BANK LENDER

Our comprehensive services for practitioners include:

- Financing equipment and leaseholds
- Financing a new practice
- Mortgage financing
- Financial management and debt reorganization
- Patient financing (Healthline)
- Practice management services (Transitions)
- Valuation and brokerage services (PPS)

We help you grow financially through every stage of your career. Call today, you simply can't do better!

1998 WINTER CLINIC DAY WEDNESDAY, NOVEMBER 25TH

*Use the enclosed stickers to mark these dates
in your appointment books!!*

Tear out and bring to Winter Clinic

Toronto Academy of Dentistry WINTER CLINIC

November 26, 1997

Metro Toronto Convention Centre

A Day of Education and
Fellowship

Lunch and walk through
Fashion Show on
Exhibit Floor 11:30-2:00

Happy Hour
on Exhibit Floor
5:00-6:00 pm

SPEAKERS AT A GLANCE

NOTE LUNCH 11:30 - 2:00

NOTE AFTERNOON STARTING TIME 2:00 to 4:30

	9:00 am → 11:30 am	11:30 am 2:00 pm -LUNCH-	2:00 pm → 4:30 pm	5:00 pm
RESTORATIVE Rm. 202ABCD	Predictable Impressioning and Foundation Restorations - Pins, Posts, or Bonding? <i>*Dr. John Kois</i>			
MOTIVATION Theatre	Re-Energize for Peak Performance <i>*Mr. Bruce Christopher</i>			
CERAMICS Rm. 201CD	The Science and Art of Practice With All-Ceramic Restorative Systems <i>*Dr. John Sorensen</i>			
BAD BREATH Rm. 205AB	Bad Breath: Diagnosis and Treatment in the Dental Clinic <i>*Dr. Mel Rosenberg</i>			
PHARMACOLOGY Rm. 206CD	The Medically and Pharmacologically Compromised Patient: Clinical Implications <i>*Dr. G.T. Terezhalmay</i>			
TECHNOLOGY Rm. 205CD	101 Technology Pearls for Dentistry <i>*Mr. Steven Seltzer</i>			
GERIATRICS Rm. 203AB	Dental Care for Older Adults: Strategies for Success <i>*Dr. Kenneth Shay</i>			
PRACTICE MANAGEMENT Rm. 206AB	The Joy of Dentistry - And Getting Paid For It! & How Can I Guarantee Success in the Changing World of Dentistry <i>*Anita Jupp</i>			
PERIODONTICS Rm. 206EF	Periodontal Treatment in a General Practice - Current and New Concepts for the Next Millenium <i>*Dr. Cary Shapoff</i>			

SPEAKERS AT A GLANCE

NOTE TIMES OF THE FOLLOWING SPEAKERS

	9:00 am → 11:30 am	11:30 pm 2:00 pm - LUNCH -	2:00 pm → 4:45 pm	5:00 pm
ENDODONTICS Rm. 203CD		Micro-Endodontics <i>*Dr. Synguk Kim</i> 9:00 am-11:30 am Only		
IMPLANTS Rm. 201AB		Endopore: Making Short Implants A Clinical Reality <i>*Dr. Douglas Deporter</i> 9:00 am-10:15 am		
RISK MANAGEMENT Rm. 201AB		Bulletproofing Your Dental Practice: Avoiding Professional Misconduct and Malpractice Problems <i>*Dr. Rollin Matsui, Mr. Paul Sullivan</i> <i>Mr. Matthew Wilton</i> 10:30 am-12:30 pm		
SLEEP APNEA Rm. 201EF		Sleep Apnea: New Advances in Pathogenesis, Recognition, and Treatment <i>*Dr. Victor Hoffstein</i> 9:00 am-10:15 am		
TMD Rm. 201EF		Temporo Mandibular Disorders (TMD): Culprit or Accomplice of the Post-Traumatic Myofascial Pain Dysfunction Syndrome (MPSD) <i>*Line Troster</i> 10:30 am-11:45 am		
ANAESTHETICS Rm. 201AB		Conscious Sedation: Leave Anxiety at the Door <i>*Dr. Peter Nkansah</i> 2:00 pm-3:15 pm		
RADIOGRAPHY Rm. 201AB		Good Radiography: A Valuable Practice Asset <i>*Mr. Lyndon Smith & Ms. Judith Davis</i> 3:30 pm-4:45 pm		
MARKETING ESTHETICS Rm. 201EF		Strategic Esthetic Planning for Predictable Results <i>*Dr. Jordan Soll</i> 2:00 pm- 3:15 pm		
ORTHODONTICS Rm 201EF		Working With Your Orthodontist - To Build A Treatment Plan Consensus <i>*Dr. Robert Reey</i> 3:30 pm - 4:45 pm		

PREDICTABLE IMPRESSIONING AND FOUNDATION RESTORATIONS - PINS, POSTS, OR BONDING?

**John C. Kols,
D.M.D., M.S.D.**

Times: 9:00 - 11:30 a.m., 2:00 - 4:30 p.m.

Room: 202ABCD

Chairpersons: a.m. - Dr. Murray Wagman
p.m. - Dr. Jack Wasserman

This course will focus on predictable impressioning (what to use and when), and the biomechanical principles for structurally compromised teeth (pins, posts and bonding).

Predictable Impressioning:

- Material Selection
- Eliminate Frustration with a Controlled Technique

Foundation Restorations - Pins, Posts, or Bonding?:

- Understanding the Post and Pin Systems
- Core Materials
- Fabrication Options
- Luting Agents

**THE ACADEMY WOULD LIKE TO THANK CLASSIC DENTAL
LABS. TORONTO FOR THE CO-SPONSORSHIP OF
DR. KOIS' LECTURE**

Planning A Meeting?

Contact the Academy office and we will record the date on the calendar and will inform you if there is a conflict with another meeting.

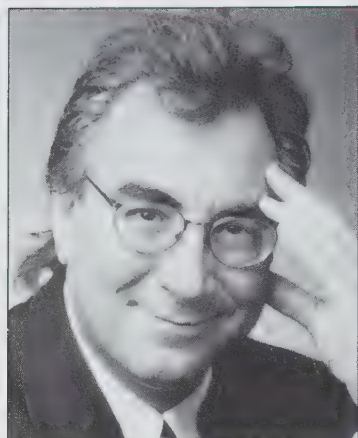

Please advise speaker, location, contact person.

Phone: (416) 967-5649

Fax: (416) 967-5081

E-Mail: admin@tordent.com

RE-ENERGIZE FOR PEAK PERFORMANCE

**Bruce Christopher,
M.A., L.P.**

Times: 9:00 - 11:30 a.m., 2:00 - 4:30 p.m.

Room: Theatre

Chairpersons: a.m. - Dr. Gerry Solomon
p.m. - Dr. Tim Milligan

Part I: Mis-Match Effect, Performance Overload & Adrenaline Furnace

Many people today are experiencing an "energy crisis" in their personal and professional lives. Increased stress both on and off the job is causing a loss in productivity that can run into billions of dollars each year.

Part I examines the symptoms and root causes of stress, and introduces personal strategies for reducing stress and releasing energy in order to enhance quality of life and personal performance. Instead of a simplistic stress-reduction approach to a shortage of personal energy, this program shows individuals how to replenish their energy reserves using proactive and practical methods. The objective of the program is to help individuals take control of their personal energy and re-focus it toward more productive behaviors.

Part II: Change & Communication Stresses

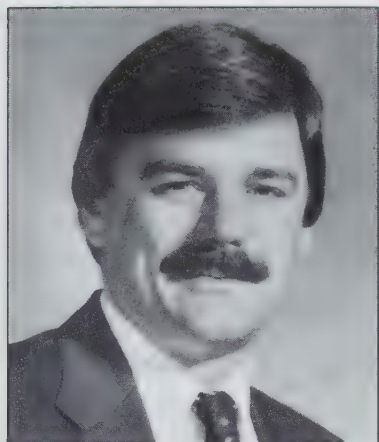

In today's competitive marketplace, no dental practice can afford to stand still. Continuous improvement and constant innovation are required in order to achieve success. Practices also have their share of difficult people to deal with whether it be customers or co-workers.

Part II examines how creativity can be enhanced and focused toward innovation. The program helps your people understand creativity, and how they can use it to create innovative solutions to problems faced by the practice. It will also help participants understand negative behavior and increase their skill level in dealing with difficult personality types.

The objectives of this program is to empower staff to see change as an opportunity for innovation rather than a threat to be avoided and to increase awareness of why difficult personality types act the way they do, and how to successfully implement strategies and techniques to achieve mutually beneficial outcomes.

THE SCIENCE AND ART OF PRACTICE WITH ALL-CERAMIC RESTORATIVE SYSTEMS

**John A. Sorensen,
D.M.D., Ph.D., FACP**

Times: 9:00-11:30 a.m., 2:00-4:30 p.m.

Room: 201CD

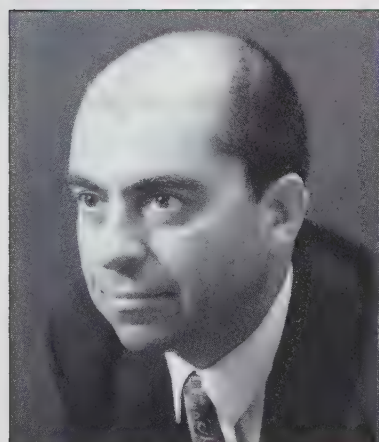

Chairpersons: a.m. - Dr. Flavio Turchet
p.m. - Dr. Howard Klaiman

An exciting array of new high-strength all-ceramic crown and bridge systems offer unparalleled esthetics as a result of improved optical properties and adhesive cementation. Many all-ceramic systems are presented and compared to metalceramic restorations for the properties of strength, esthetics, soft tissue response and ease of handling of the materials. Ongoing clinical trials on In-Ceram bridges and Empress crowns conducted by Dr. Sorensen at UCLA are offered.

All-ceramic systems are demonstrated with respect to materials properties, treatment planning options, less invasive tooth preparation designs, manipulative characteristics, and shade selection. This course will cover all applications of ceramic restorations such as inlays, onlays, veneers, 3/4 crowns, full crowns and bridges. The latest dentin adhesives and resin cements are described along with simplified techniques for cementation of ceramic restorations and rapid efficient finishing methodologies. The esthetic predicament of restoration of endodontically treated teeth will also be addressed.

THE ACADEMY WOULD LIKE TO THANK VIDENT CANADA FOR THE SPONSORSHIP OF DR. SORENSON'S PRESENTATION

BAD BREATH: DIAGNOSIS AND TREATMENT IN THE DENTAL CLINIC

**Mel Rosenberg,
P.h.D.**

Times: 9:00-11:30 a.m., 2:00-4:30 p.m.

Room: 205AB

Chairperson: Dr. Richard Ellen

Bad breath (halitosis, oral malodor, fetor oris) is a problem that has been with us for thousands, if not millions of years. The goal of this seminar is to discuss topics of clinical relevance and to give the practitioner further insight into how he/she can help patients smell better and improve their oral health. The course will deal with the following:

- Bad Breath: From Biblical times to today
- Where does bad breath come from?
- The "Bad Breath Paradox": Why can't we smell our own?
- How to diagnose bad breath in the dental clinic
- How to treat bad breath
- Mouthwashes: yes or no?
- Periodontal disease: Are they related?
- Bad breath in children and older populations
- How to monitor improvements in bad breath
- Halitophobia - What is it, what to do about it

THE MEDICALLY AND PHARMACOLOGICALLY COMPROMISED PATIENT: CLINICAL IMPLICATIONS

G.T. Terezhalmay,
D.D.S., M.A.

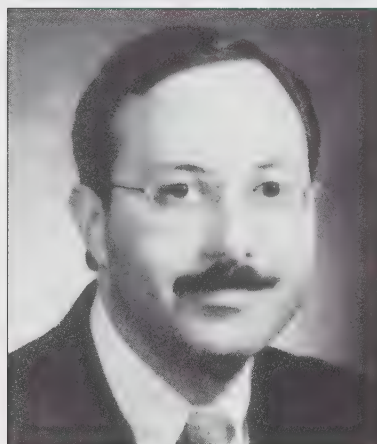

Times: 9:00-11:30 a.m., 2:00-4:30 p.m.

Room: 206CD

Chairpersons: a.m. - Dr. Arnold Weingarten
p.m. - Dr. Ken Hershenfield

Advances in medical technology have resulted in high survival rates for people born with developmental abnormalities and those with acquired disabilities. Consequently, today's clinicians must treat more medically and pharmacologically compromised patients than ever before. An awareness of the various medications commonly prescribed for patients to self-administer will assist clinicians to anticipate the most commonly encountered medical diagnoses; will alert clinicians to potential drug-drug and drug-disease interactions, and to the presence of drug-induced illness; and provide invaluable information which will assist the clinician to identify the high risk patients who may experience a life-threatening medical emergency.

101 TECHNOLOGY PEARLS FOR DENTISTRY

Steven M. Seltzer,
M.B.A., D.D.R.T.

Time: 9:00-11:30 a.m., 2:00-4:30 p.m.

Room: 205CD

Chairpersons: a.m. - Dr. Peter Tonisson
p.m. - Dr. Bruce Rubin

Discover the best ways to use high tech in your practice through this fast paced, high content course that presents products and concepts unavailable anywhere else in dentistry. Enjoy a mind expanding paradigm shifting high tech day that includes:

- 101 pearls consisting of products, services and concepts that encompass all facets of practice marketing, management, paper reduction, and clinical applications
- Developing your own custom phased technology implementation plan
- Making high tech affordable
- The Seven Levels of Technology Integration

DENTAL CARE FOR OLDER ADULTS: STRATEGIES FOR SUCCESS

**Kenneth Shay,
D.D.S., M.S.**

Times: 9:00 - 11:30 a.m., 2:00 - 4:30 p.m.

Room: 203AB

Chairpersons: a.m. - Dr. Gilbert Chapnick
p.m. - Dr. Don Stewart

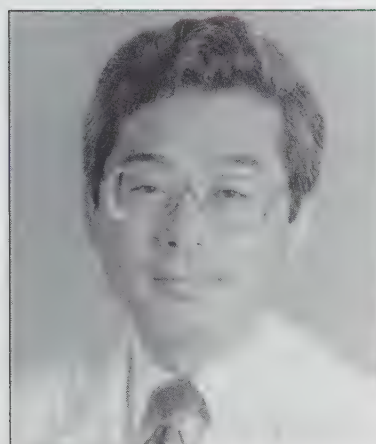

Increase in the number and anticipated life expectancy of older adults has combined with decreasing tooth loss among this group, presenting today's dental practitioner with uniquely perplexing challenges.

The morning presentation will focus on clinical issues involving the dental management of relatively healthy members of the older population. Some characteristics of the aging dentition include pulpal regression and insensitivity, exposed root areas and proximal furcations; and teeth that have already received extensive restorations. We

will explore the impact of these changes on the dentist's approach to planning and rendering care. Different strategies for building up and enhancing retention of restorations will be discussed in the context of older teeth, as will root caries detection, management and prevention.

A significant number of older patients suffer from one or more chronic disease states. The afternoon presentation will focus on the dental management of the chronically debilitated older adult whose care involves coordination with other health care disciplines. The necessary interplay between dental, medical, and allied health management will be illustrated through discussions of dental care for patients stricken with several prevalent conditions. We will examine the assessment and dental management of patients with xerostomia, dental considerations for patients who have had hip arthroplasties, and oral health management of patients with neurological impairment such as stroke and Alzheimer's disease.

MICRO-ENDODONTICS

**Synguk Kim,
D.D.S., Ph.D.**

Time: 9:00 - 11:30 a.m.

Room: 203CD

Chairperson: Dr. Shayne Lipton

The operation microscope is changing endodontic practice. Many features of the root canal anatomy, before unseen and unknown, are now visible and treatable. Micro-Endodontics is now a precise visual experience rather than a tactile guessing game.

This presentation will be an overview of the new techniques and new technologies that have evolved in response to the microscope: Nickel Titanium file systems and techniques, ultrasonic post and separated instrument removal, thermoplastic filling techniques, procedural error and perforation repair will be addressed.

**THE ACADEMY WOULD LIKE TO THANK THE ONTARIO SOCIETY OF ENDODONTISTS
FOR THE CO-SPONSORSHIP OF DR. KIM'S PRESENTATION**

THE JOY OF DENTISTRY - AND GETTING PAID FOR IT! & HOW CAN I GUARANTEE SUCCESS IN THE CHANGING WORLD OF DENTISTRY?

Anita Jupp

Times: 9:00 - 11:30 a.m., 2:00 - 4:30 p.m.

Room: 206AB

Chairpersons: a.m. - Dr. Gerald Weisberg
p.m. - Dr. Ronald Traub

Join Anita for an inspiring and informative day learning about the joys of dentistry and getting paid for all of your hard work! To this day, collections are still a problem for many dental practices. Anita will demonstrate how to plan ahead and get the best results without stressing yourself and your team. Managed care and the reduction of some dental benefits are affecting every practice. Learn how to cope with the recent changes in the insurance industry. Use proven principles with a new approach - learn from the past to create a brighter future. Marketing your practice is more important than ever before in today's competitive market.

Morning Topics:

- Expecting and receiving payment from patients
- Dramatic changes in benefits - are you aware of the effects?
- What the dentist does not know and what the staff don't tell him

Afternoon Topics:

- Keeping up and dealing with trends and changes
- Entering a new market of specific services
- OLD marketing strategies will not work in the future
- What to expect from a marketing plan

This is an important session for the entire dental team.

PERIODONTAL TREATMENT IN A GENERAL PRACTICE - CURRENT AND NEW CONCEPTS FOR THE NEXT MILLENNIUM

**Cary A. Shapoff,
D.D.S.**

Times: 9:00 - 11:30 a.m., 2:00 - 4:30 p.m.

Room: 206EF

Chairpersons: a.m. - Dr. Godfrey Beber
p.m. - Dr. David Hanmer

This lecture will focus on the various components of periodontal treatment that can be incorporated into every general practice by the general practitioner and the dental hygienist. These components include a thorough periodontal examination of new patients, periodic examination of all adult patients, an effective plaque control program, effective root planing procedures and how to develop an effective maintenance program. Dr. Shapoff will discuss the questions of when and how to refer to a periodontist, as well as the periodontist's responsibilities in the referral process.

The program also reviews the numerous periodontal surgical procedures that can be accomplished to provide an ideal esthetic and functional base on which to complete the restorative dental care for a patient. The course discusses crown lengthening, reasons for gingival recession around crowns, creating the ideal pontic space with hard and soft tissue augmentation procedures, and root and crown margin coverage procedures.

This very comprehensive course is designed to provide over 100 important facts about periodontal disease recognition and treatment, so you will have a better understanding of what to do and what NOT to do.

The Toronto Academy of Dentistry thanks Block Drug Company (Canada) Ltd. for their co-sponsorship of Dr. Shapoff's lecture.

ENDOPORE®: MAKING SHORT IMPLANTS A CLINICAL REALITY

Douglas Deporter,
D.D.S., Ph.D.

Time: 9:00 - 10:15 a.m.

Room: 201AB

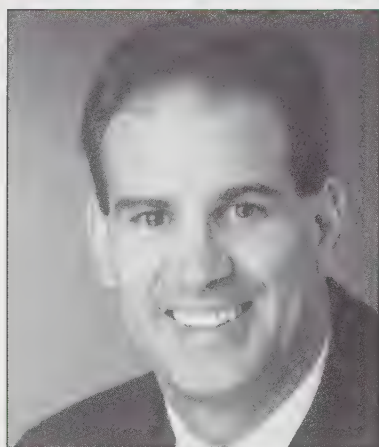

Chairperson: Dr. Robert Pick

The Endopore dental implant, developed at the University of Toronto, is a new and unique endosseous root-form design with a truncated cone shape that utilizes a powder-sintered, multilayered porous surface geometry over most of its length to achieve integration by 3-dimensional bone ingrowth. Advantages of the design include short implant lengths (5,7,9 & 12 mm only) permitted because of the substantial increase in surface area achieved by the porous surface geometry; self-seating, tapered, press-fit, anatomically-friendly shape; minimal instrumentation; straightforward, 4-step placement technique; shorter initial healing times; secure, 3-dimensional interlocking interface with bone; and, predictable and mini-

mal crestal bone remodeling.

In this presentation, Dr. Deporter, a co-inventor of the Endopore®, will give a general overview of the rationale, scientific background, results of human clinical trials, the longest of which now extend to 8 years of continuous clinical function, and basic surgical technique.

STRATEGIC ESTHETIC PLANNING FOR PREDICTABLE RESULTS

Jordan Soll,
D.D.S.

Time: 2:00 - 3:15 p.m.

Room: 201EF

Chairperson: Mollie Petryna

Strategic esthetic planning, sometimes referred to as the "Step Technique", is a fresh approach to working with the esthetically conscious patient. Between the time the new patient first contacts your practice and treatment is initiated, how do you manage to bring the patient to the point of commitment and gain acceptance for fee for service elective dentistry?

This concept is divided into three sections; an introduction into your practice, an examination and records for esthetic treatment, and treatment. Dr. Jordan Soll presents a blueprint that closely follows the planning guide which he developed. The Strategic Esthetic Planning form is a unique approach to diagnosing esthetic problems. By following the four page guide, the principles of esthetic treatment planning are presented in a fashion that will allow you to identify the obstacles and seek the solutions.

This highly informative presentation will give the general dentist a unique understanding of the principles involved in delivering high quality esthetic dental treatment.

SLEEP APNEA: NEW ADVANCES IN PATHOGENESIS, RECOGNITION, AND TREATMENT

**Victor Hoffstein,
Ph.D., M.D.,
FRCPC, FCCP**

Time: 9:00 - 10:15 a.m.

Room: 201EF

Chairperson: Dr. Peter Markle

Sleep apnea is a common condition affecting almost 10% of adult males and 5% of adult females in North America. Its most common symptom is snoring, which is usually the reason for referring these patients to sleep disorder centers. However, other common symptoms include daytime tiredness, fatigue, daytime sleepiness, and problems with memory and concentration. Untreated, sleep apnea may be a common cause of industrial and automobile accidents. It may be associated with severe nocturnal hypoxemia, predisposing patients to cardiac arrhythmias and hypertension. The pathogenesis of this disorder, although still controversial, is clearly related to abnormal structure and function of the upper airway, extending from the nasopharynx to hypopharynx. Structural

abnormalities include narrowing of the airway, while functional abnormalities include increased collapsibility. Thus, it is the small and floppy pharynx which repeatedly closes during sleep, that is responsible for recurrent episodes of airway obstruction, i.e. obstructive sleep apnea. Details regarding pathogenesis, recognition, and treatment of this disorder will be discussed.

TEMPORO MANDIBULAR DISORDERS (TMD): CULPRIT OR ACCOMPLICE OF THE POST-TRAUMATIC MYOFASCIAL PAIN DYSFUNCTION SYNDROME (MPDS)

**Line Troster,
R.P.T., M.C.P.A.**

Time: 10:30 - 11:45 a.m.

Room: 201EF

Chairperson: Dr. Henry Levant

Scale of the Problem: Introduction to TMD and MPDS:

- TMD & MPDS: Definitions, factors and treatability of this complex clinical entity
- Identification of the TM Joint injury
- Primary or secondary TMD?

Primary TMD Resulting from Mandibular and Cranial Whiplash:

- Mechanism of mandibular whiplash
- Risk of progressive degenerative changes
- Internal derangement and MPDS

Secondary TMD, Cranio-Mandibular and Facial Pain:

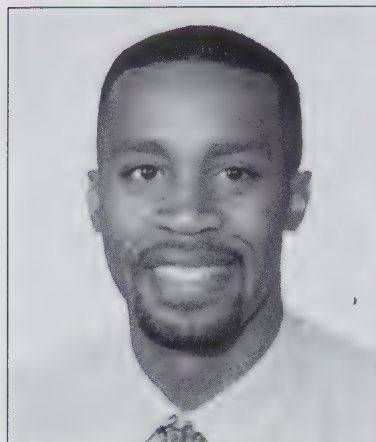

- Pre-disposing or perpetuating factors
- Myofascial trigger points, their referred pain pattern into the head, face and TMJ region
- Elements of neuro-physiology of trauma and pain

Treatment of MPDS & TMD Patients: a dual or multi-disciplinary management program:

- General principles and assessment
- Progressive and corrective treatment: The dentist & physiotherapist duo for successful outcome

CONSCIOUS SEDATION: LEAVING ANXIETY AT THE DOOR

*Peter J. Nkansah,
D.D.S.*

Time: 2:00 - 3:15 p.m.

Room: 201AB

Chairperson: Dr. Sharon Perlmutter

Dr. Nkansah will examine sedation with oral agents and with nitrous oxide, though not the combination of the two. Dental anxiety is a clearly demonstrated, common phenomenon that impacts the ability to deliver efficient, high quality dental care. These techniques will help some of these patients and their practitioners deliver satisfactory care to children, adults, and patients with special needs. Patient selection and preparation, as well as 'do's and don'ts' with conscious sedation techniques will be reviewed.

GOOD RADIOGRAPHY - A VALUABLE PRACTICE ASSET

Mr. Lyndon E. Smith

Ms. Judith Davis

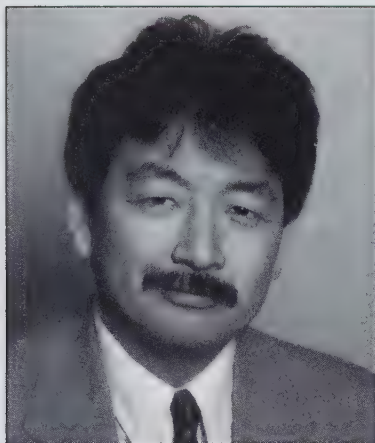

Time: 3:30 - 4:45

Room: 201AB

Chairperson: Eva Lissia

Providing quality dental X-rays is a key component to running a successful practice. In this interesting and practical presentation, Mr. Smith and Ms. Davis will discuss the following topics: film quality assurance (staff training); HARP compliance; equipment maintenance; and darkroom / processing techniques.

BULLETPROOFING YOUR DENTAL PRACTICE: AVOIDING PROFESSIONAL MISCONDUCT AND MALPRACTICE PROBLEMS

***Rollin M. Matsui,
B.Sc., D.D.S., LL.B.***

***Paul J. Sullivan,
Q.C.***

***Matthew Wilton
LL.B.***

Time: 10:30 a.m - 12:30 p.m.

Room: 201AB

Chairperson: Dr. Gordon Organ

When a patient has a complaint against you, real or imagined, all they have to do is invest in a postage stamp and write a letter to the RCDS. The College is bound by law to investigate the complaint, and when you receive their first letter to you, that is where the panic sets in. But what does it all mean? Is the RCDS your professional friend to help defend you, or is it an unrelenting prosecutor who looks for any excuse to take action against dentist, or is it something in between?

Our panel will team Dr. Rollin Matsui, dentist and lawyer and executive director of the Canadian Dental Protective Association, co-sponsors with the Academy of this session, with Mr. Paul Sullivan, who has prosecuted members of various professional colleges, and Mr. Matthew Wilton, whose practice is largely built on defending dentists and other health professionals. They will show how to protect yourself against actions and their consequent heartache, and what the actual process is, from the point of view of the prosecution and the defense. The risks of such an action are constantly increasing, and through this panel you will learn how to better protect yourself against them, as well as what to do should one be started against you. A question and answer period will follow the presentation.

The Academy of Dentistry thanks the Canadian Dental Protection Association.

WORKING WITH YOUR ORTHODONTIST - TO BUILD A TREATMENT PLAN CONSENSUS

**Robert Wm. Reey,
D.D.S.**

Time: 3:30 - 4:45 p.m.

Room: 201EF

Chairperson: Dr. David Hirsh

This presentation will build upon the development of a "distinct mutual understanding" of where the orthodontist is coming from and where the restorative dentist is coming from, so that the following decisions can be made and appreciated: aesthetic decisions, surgical decisions, orthopedic (growth alteration and manipulation) decisions, periodontal considerations, TMJ disorders and restorative decisions.

With a mutually beneficial relationship, the orthodontist - restorative team can understand and satisfy the major objectives in treatment:

- Facial aesthetics
- Dental aesthetics and periodontal health
- Stability
- Function

This will result in two important rewards. Firstly, the team will know it has done and delivered its best treatment, and secondly, the patient will respond with a "thank you"!

"Auto insurance is changing, are you getting the best rate?"

A new system for setting car insurance premiums could reward drivers of cars that are less expensive to fix after accidents and less attractive to car thieves. But at what cost? As the system is being implemented at different times by different insurers, consumers could experience a wide variance in insurance rates.

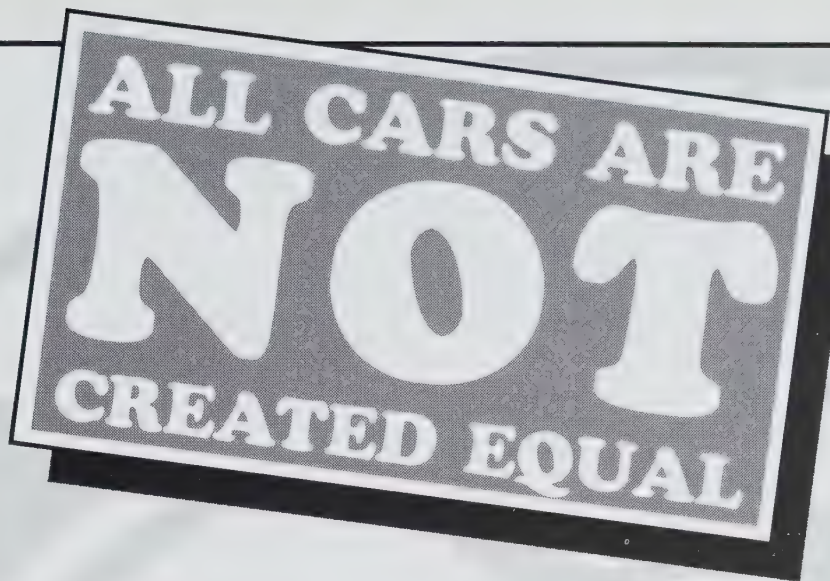

What is Clear?

Until now, insurance premiums have been based mainly on your personal driving record and claims history. Under the new Canadian Loss Experience Automobile Rating (CLEAR), many insurance companies are adjusting premiums based on the overall claims costs for each car model as well. CLEAR was developed by the Vehicle Information Centre of Canada (VICC), the industry's central collection agency for vehicle data.

"You could have two different cars, both costing \$20,000, but one gets stolen 10 times more. In the past, they could have had the same premiums. CLEAR helps place premiums where the risk really is," says VICC vice-president Roch Lacroix.

Seek Advice

The Insurance Bureau of Canada predicts all insurance companies will adapt the CLEAR system over the next year or two, but what's unclear is when each insurer will implement it. So, before you buy your new or used car, check with your insurance broker to be certain you're getting the best rates. Call **Pottruff & Smith Insurance** at 1-800-263-2369.

The Canadian Auto Insurance Industry is changing to a new system called:

CLEAR

Exhibit Hall B

[HTTP://WWW.TORDENT.COM](http://www.tordent.com)

Remember that address. It is the gateway to the new web site of the Toronto Academy of Dentistry that is under construction and will be launched into cyberspace very soon.

Tordent will be your link to the Academy. This site will feature Academy highlights, news of upcoming Academy events, seminars and meetings, including online registration. And this is just the beginning. Over the next few months we will add a dental marketplace, employment postings, a bulletin board, hot links and many other surprises.

Each of the four Toronto societies will have a corner at tordent to use as it pleases. There will be room at tordent for societies to notify its members of scientific meetings, post their newsletters and invite comments by e-mail.

We at the Academy are very excited about tordent. We'll keep you posted as to its progress and look forward to having you visit us there frequently.

Bruce L. Rubin, D.M.D.

*THE TORONTO ACADEMY OF DENTISTRY
GRATEFULLY ACKNOWLEDGES NEWCOURT FINANCIAL,
HEALTHCARE UNIT AND THANKS THEM FOR HELPING
US SUPPORT THIS CHARITABLE CAUSE*

The Newcourt Financial Dental Golf Classic was held on Wednesday June 4th at Angus Glen Golf Club. Through the support of the dentists and dental industry **\$13,000** was raised for The Hugh MacMillan Children's Foundation.

It was a great day and the committee looks forward to another sell-out at the **1998 TORONTO DENTAL GOLF CLASSIC WEDNESDAY, JUNE 3RD AT ANGUS GLEN GOLF CLUB.** This is one of the top-ranked clubs in Ontario and will once again provide an excellent venue for the tournament.

Used by 9 out of 10 dentists

Nine out of 10 dentists are using CDSPI every day.

All because dentists trust Canadian Dental Service Plans Inc. to protect their financial security.

It's no wonder. CDSPI is owned by the Canadian Dental Association and nine provincial associations. So it really is your own company.

And it's non-profit. Staffed by experts. So you get the best plans at the best price.

The Canadian Dentists' Insurance Program gives you plans designed just for dentists. And the CDA RSP boasts a strong performance record and the lowest fees you're likely to find.

Always choose CDSPI. Regular use is vital to your financial health.

CDSPI • THE CHOICE OF 90 PER CENT OF CANADIAN DENTISTS

MEDIATIONS REPORT

Gilbert Chapnick, D.D.S.

A survey was recently conducted by the widely read magazine Consumers Reports with regards to the services received by patients from their dentists. A very impressive number of people indicated satisfaction with the results of treatment and confidence with the dentists who performed the services.

However, there was also a negative response. Areas of concern voiced, included not being informed of the cost prior to treatment, not being informed of alternative treatment options, possible outcomes of treatment and guarantees of success being unexplained, and at times, people felt that they were not treated in a caring manner.

Patients expect, and have the right, to be well informed about the treatment, and expectations of outcomes should be understood prior to providing any service. Patients should be treated with a caring and concerned attitude.

The Toronto Academy of Dentistry receives approximately 800 telephone calls per year with regards to patients questioning the treatment they have received. Most of these calls can be handled with kind words of explanation and attentive listening by our dedicated staff. This year forty written complaints had to be mediated by our committee members, mostly with success.

The process of mediation is well defined and follows written guidelines developed by The Ontario Dental Association. The Academy co-ordinates and oversees the process for the four Toronto societies. We attempt to mediate for dissatisfied patients in order to avoid further escalation of problems from complaints that are within the scope of our committee. This is most valuable service to both the profession and the public and I would like to thank the Mediations Committee members for their time and dedication.

Gilbert Chapnick, D.D.S.

Mediations Consultant

to The Toronto Academy of Dentistry

EMERGENCY SERVICE

The Academy offers a daytime referral as well as an after hours emergency service. There is only one telephone number for patients to call – during the day and after hours. **967-5649**. After hours this number is call forwarded to an answering service. Leave only **967-5649** on your answering service.

DAYTIME HOURS: 8:30 a.m. - 4:30 p.m.

AFTER HOURS:

Weekdays – 4:30 - 11:00 p.m.

**Saturday, Sunday, Holidays and any day
the office is closed:
9:00 a.m. - 11:00 p.m.**

If you are interested in becoming a member of the Emergency Service, and your practice in Metropolitan Toronto, please call the Academy office at 967-5649.

Dr. Ron Richardson
Chairman, Emergency Service

ASSOCIATE PLACEMENT SERVICE

Looking for an associate?
Looking for an associateship?
Call the Academy office at 967-5649.

Are You Protected?

As a professional, you are faced with the possibility of becoming involved in legal disputes that may threaten the professional licence you've worked so hard to obtain.

When the time comes that you find yourself facing legal action, the last thing you need is the worry of paying for experienced legal counsel.

The Canadian Dental Protective Association (CDPA) is a federally incorporated non-profit organization run by dentists for dentists. CDPA is committed to caring for the risk management needs of its members and is pleased to sponsor an excellent legal benefits insurance plan for your protection.

CDPA offers risk management courses, provides risk management publications and arranges a legal advisory line to help guide members with any legal concerns.

ENVIRONMENTAL ALTERNATIVES **for** **DENTAL PROFESSIONALS** **ANNOUNCEMENT**

BOOTH #321

DV.FX Disposal Service in the City of Etobicoke.

**Offers an Opportunity to all Dental Professionals in the greater Toronto Area.
To participate in it's collection for disposal programs. Dental practices can become
100% Environmental Friendly, & POLLUTION FREE.**

**Pathological Biomedical & Radiograph Related Wastes including LEAD FOILS,
can be collected & disposed of in most cases for sixty dollars a month,
price determined by individual practice consumption. Dental Professionals
interested in participating in these environmental programs
or have any questions regarding these matters,
Please call Richard at DV.FX Disposal Services 416-252-6265**

When nature doesn't quite get it right

Use Vita In-Ceram® Spinell to build a secure, stable foundation.

Spinell, a naturally occurring high temperature mineral is now being synthetically enhanced to offer an all-ceramic, aesthetically superior solution for crowns, inlays and onlays. The natural aesthetics and translucency of Spinell, combined with accurate marginal fit extends the proven VITA In-Ceram® technique. Insist on VITA In-Ceram® Spinell and take your next restoration to new heights.
